Location: Baipail, Ashulia, Savar, Dhaka

Professional Summary

Passionate and detail-oriented Software Engineering student with a strong foundation in full-stack development. Skilled in HTML, CSS, JavaScript, Vue.js, PHP, Laravel, and Inertia.js. Eager to apply my knowledge in real-world projects and enhance user experiences through efficient, scalable, and innovative solutions. Currently building a backend-driven portfolio and a car rental application using Laravel and Vue.js.

Technical Skills

- **Frontend:** HTML, CSS, JavaScript, Vue.js, Inertia.js
- **Backend:** PHP, Laravel 11
- **Database:** MySQL
- **Tools & Platforms:** Git, GitHub
- **Other Skills:** UI/UX Design, API Integration, Responsive Web Development

Projects

Portfolio Website (Laravel + Inertia.js + Vue 3)

- Developed a backend-driven portfolio to showcase skills, projects, and personal details.
- Implemented an email contact feature for seamless communication.
- Designed an intuitive and responsive UI for a professional look.

Car Rental App (Laravel + Inertia.js + Vue 3)

- Building a fully functional car rental platform with booking and management features.
- Utilizing Laravel for backend logic and Vue.js for a dynamic frontend experience.
- Integrated authentication and data handling with Laravel Breeze.

Sales Page with Invoice System (Vue.js + Laravel)

- Created a sales management system with customer and product selection.
 - Integrated a modal-based product update feature with image uploads.
 - Designed a clean and interactive UI for seamless user experience.
-
